My husband and I are first time homebuyers and Stewart made the inspection process such an educational and enjoyable experience for us. He was very thorough and walked us through everything step-by-step. We would certainly recommend him to anyone looking to complete their home inspection.

Mr. Austin and his home inspection services are top notch! He was very thorough and the inspection report for my home was very impressive! Stew makes sure that you understand what needs to be fixed/repared and does not leave any questions unanswered... He had the report to me within a day and everything was very clear. He included pictures with detailed descriptions of each potential issue. He also followed up with me several times to make sure there were no issues or questions. He does his homework and doesn't just come to your home and do the inspection and leave. He knew about some issues and made me aware of them before he even meet me at the house. His professionalism and kindness were appreciated and he kept me at ease throughout the inspection. I will definitely be using him for my next home and you should consider having him do your inspection as well to avoid any disappointment. I would recommend him to anyone! Thanks again Stew...

We would highly recommend Mr. Austin as a home inspector. He exercises careful attention and thoroughness in his job performance from start to end. Not only is he extremely qualified and knowledgeable in his field, he is also very professional and courteous. We are grateful for the patience and time he provided in answering all our questions and in addressing our many concerns.

Thank you so much for the exemplary service you provided! Scotch Plains, NJ

Mr. Austin was on time & spent over three hours inspecting the house. After the inspection, he explained his findings. Shortly after the inspection he provided a thorough report containing the details of the condition of the house and

suggestions for improvement. Mr. Austin is a capable and competent inspector and I highly recommend him.
